How To Live With Different Temperaments and Personalities

Feb. 4

POM ANNEX - Do you wish your spouse was more romantic? Do you wonder why your mate is always late? Have you ever noticed that some couples love parties, while others love quiet evenings at home by themselves?

Do you wonder why some spouses like to plan ahead, while others enjoy being spontaneous?

To get the answers to these questions and many others about personality and gender differences, plan to attend the Army Community Service-sponsored workshop from 6 to 8 p.m., Thursday, Feb. 4, at the General Stilwell Community Center, Building 4260, POM Annex. Decades of research reveals that people are frequently attracted to, and marry someone opposite in temperament and personality. Then we try to change them to be more like us.

Finding out how and why we differ from our mates is a fun experience and our workshop leader, Ripple Huth will explain how this information can be used to help us appreciate and enjoy our differences. We encourage couples to attend together, but everyone is welcome. Child care is provided. Please call ACS (Ms. Moore) at 242-7660 for further information.

Anger Management Class

Feb. 9

POM ANNEX - Those attending the Feb. 9 Anger Management Class will receive valuable information on evaluating anger, understanding anger and the process of anger arousal, and specific techniques for controlling anger. The class begins at 6 p.m. until 9 p.m. at the Post Chapel Center, POM Annex. Free child care is available. Call Army Community Service at 242-7653 or 242-7660 for information and registration.

New Army physical fitness standards set Feb. 1

by Sgt. 1st Class Connie E. Dickey and Gerry J. Gilmore

WASHINGTON (Army News Service, Dec. 7, 1998) — Army Chief of Staff Gen. Dennis J. Reimer approved implementation of the new APFT standards for Feb. 1, 1999. A message signed Dec. 7 by Director of Training Brig. Gen. James J. Lovelace informed commanders to proceed with the new PT standards.

The new standards were originally scheduled for Army-wide implementation Oct. 1, but were delayed. Sgt. Maj. of the Army Robert E. Hall said he believes soldiers will do well on the revamped PT test.

"The delayed implementation had nothing to do with whether or not soldiers [in the field] were ready [for the new test]," Hall said. "I expect scores to drop 4-6 points, but the bottom line is: the NCO Corps is ready for the new standards and has been all along."

Hall said one reason for the delay was because new PT scoring cards had not been printed and a larger reason was that Department of the Army leadership had not received input from major commanders offering feedback on the new standards.

The new cards have been printed and shipped to distribution centers and should be ready for pickup by units now, said Maj. John A. Hughes with the Deputy Chief of Staff Operations and Plans, Institutional Training Division. The cards have been sent to Army Reserve, state adjutant generals for the National Guard and to active-component installations both in the United States and overseas.

The current physical fitness standards have been in effect since the 1980s. The test used now was developed and

adopted in 1984. In 1992, Training and Doctrine Command began reviewing the Army Physical Fitness Test to see if it was valid for the Army.

"This is the result of a five-year study," said Col. Stephen Cellucci, commandant of the U.S. Army Physical Fitness School at Fort Benning, Ga.

The old test standards didn't enable men and women to be evaluated fairly, Cellucci said. The new standards address this issue, he said, as they were derived through scientific methods.

"The new standards are, overall, tougher for both men and women; we had to establish equity for men and women of all age groups," Cellucci said. "Now, you have equal points for equal effort."

The new PT test adds three additional age groups: 52-56; 57-61; and 62 plus, Cellucci said. The previous test's most senior category was age 51, which, he said, raised unrealistic fitness expectations for older soldiers.

Career Army officers and noncommissioned officers, Cellucci said, are scoring well beyond the Army average PT score.

The average scores for the new PT test "should be around 238," Cellucci said, which is close to today's average. Starting Feb. 1, soldiers who want to earn a fitness badge will need to score 270 total points - 90 per event - instead of the 290 points now required. Cellucci said that 90 points per event should be equal to an "A" or excellence.

Soldiers who wish to keep their fitness badges will need to revalidate them at each PT test, Cellucci said.

"Today's soldiers are in the best shape, ever," he said.

Post Veterinarian Encourages Avid Microchip

A simple injection means a lifetime of protection for your animal.

Statistics show one out of three family pets will be lost. Unfortunately, only 10 percent of lost pets are identified. With the Microchip program, a scanner is used to retrieve your pet's I.D. number immediately. The I.D. number is entered into a computer where an extensive database matches the I.D. number with pertinent information about you, the owner. What this means is a quicker reunion with your lost pet and reduced chances he will be taken to the pound or animal shelter. Veterinarians agree that the Avid Microchip is the identification method of choice. A simple and safe injection gives your pet permanent identification.

**For details, ask your veterinarian (242-7718),
or call 1-800-336-AVID**

Contest

**Pick a new name for the
Presidio of Monterey Annex**

Many of you have mentioned that you don't
like the name "Presidio of Monterey Annex."
What we need are some suggestions for a
better name. The name selected will become
the alternative that we will push for in the
renaming process.

(1) The name must contain the name "Ord"
(such as "Ord Military Community" or "Ord
Reservation").

(2) We're sorry, but "Fort Ord" is not an
option. "Fort" is reserved for active military
installations only.

Entries due by February 28.

If you have questions, please call Jay Price
at (831) 242-5536. You can also e-mail your
response to pricej@pom-emh1.army.mil or fax
it to (831) 242-6608.
